

A new synergy for your skin

1 Exclusive patented active ingredients developed by the Research and Development Department of Laboratoire IDENOV:

GLYCO C®

A new complex containing 3 forms of highly stabilized vitamin C which, for the first time, uses the full potential of this vitamin for rejuvenating your skin (clinical tests performed at CHU Besançon).

SENSINOV®

A unique complex containing several monosaccharides and polysaccharides for triple action skin repair, soothing and protection.

2 Skin care programs based on medical dermo-cosmetic expertise for optimal results.

3 Highly concentrated formulations containing active marine and vegetable ingredients.

4 Efficacy proven by *in vivo* and *in vitro* tests.

COMMITMENT
OF LABORATOIRE IDENOV®

All products are:

Formulated to protect the natural balance of your skin and minimize the risk of allergic reactions and at the same time ensure optimal efficacy.

Produced under pharmaceutical control

Tested under dermatological control

Not tested on animals

IDENOV® products are available in pharmacies and drugstores.

Ask your doctor or pharmacist for advice.

IDENOV

Dermo-cosmetic medical skin care systems

laboratoire
IDENOV
Dermo-cosmetic medical
skin care systems

Tiredness, worries, pollution ... who of us is not subjected to these influences? And the effects of time? Did you notice this light film which has settled on your face over the years: those shadows and lines here and there, the first visible attacks on the oval of your face, the glow of your complexion?

To restore the youth of your skin and protect it effectively from the damages caused by time, Laboratoire IDENOV® has developed care systems combining scientific innovation and the expertise of aesthetic medicine.

IDENOV® care products are the result of a close cooperation between the Research and Development department of Laboratoire IDENOV and dermatologists and doctors of aesthetic medicine.

The IDENOV skin care systems have been designed in order to fulfill two main goals:

► Prevent and slow down premature skin aging through intensive stimulation of the skin's natural repair mechanisms

► Prolong the results of medical aesthetic procedures and help the skin to recover faster and better.

PEELINOV®
Comfort Peel

Renewing* and rejuvenating care for all skin types. Smooths the facial contours, brightens dull skins, promotes a uniform skin tone and tightens the pores for healthy looking skin.

This peel with ultra-comfort gel texture combines 20% fruit acids which are extracted from sugar cane with hydrating and anti-irritating polysaccharide** for a gentle renewal of your skin. In only a few minutes this peel removes the layer of dead skin cells, stimulates collagen generation and cell renewal.

The post-peeling cream SENSINOV® is a moisturizing*, soothing and repairing skin care product which is rich in active ingredients for the optimal comfort of your skin.

- **Proven results****
- More glowing complexion..... 71 %
 - Tighter pores.....86 %
 - More uniform skin tone.....85 %

① PEELINOV® can be used all year round in 15-day treatment courses with one application per day. It is recommended as home peel in between peeling sessions at the doctor.

HYDRACURE®
mask
Calming and revitalizing care

Calming and revitalizing care Ready-to-use cloth mask: a new care concept for an intensive moisturizing* treatment with an immediate calming and refreshing effect. It improves the elasticity and vitality of the skin.

It contains natural marine collagen in its native form for an optimal skin-firming and revitalizing effect. The natural litchi extract has a moisturizing and antioxidant effect.

- **Proven results****
- Immediate refreshing and calming effect.....74 %
 - Skin better hydrated.....84 %
 - Smoother and more relaxed skin.....67 %

① Use at least once weekly and as required.

Recommended after medical aesthetic procedures (peeling, laser treatment, mesotherapy, dermabrasion).

GLYCO C® 10 Cream
Wrinkle-reducing, skin lightening skin care

For the first time, all beneficial effects of vitamin C on the skin are combined in one product.

- More effective and prolonged long-term anti-wrinkle and antioxidant effect thanks to the GLYCO C complex concentrated at 10 % (patented highly-stabilized vitamin C complex).
- Brightens the skins, creates a uniform skin tone and reduces redness in the face
- Matricaria recutita extract with cicatrizing properties and Imperata cylindrical extract (a root which originally comes from the desert regions of Australia) with powerful moisturizing properties contribute to the rejuvenating effect.

- **Proven results**
- Reduced wrinkles.....71 %
 - More glowing complexion.....86 %
 - Reduced age spots.....43 %

① Use once or twice daily for optimal results. Prolongs the rejuvenating effect of medical aesthetic treatments such as peelings, laser treatments and mesotherapy. For optimal results apply GLYCO C® 20 serum before the cream.

GLYCO C® 20 Serum
Anti-wrinkle concentrate, immediate skin-firming effect

Ultra-powerful skin care product which combines, for the first time, argireline* with 20% vitamin C (GLYCO C®) and marine collagen for:

- Anti-wrinkle and anti-age spot effect
- Relaxing effect on wrinkles in the area of the forehead and around the eyes (botox-like effect)
- Toning effect against sagging skin and immediate skin-firming effect

*Argireline is a hexapeptide consisting of natural amino acids which reduces deep wrinkles caused by muscle contractions, particularly on the forehead and around the eyes.

- **Proven results****
- Reduced wrinkles.....75 %
 - Skin with higher elasticity.....88 %
 - Reduced age spots.....75 %

① Use in treatment programs with at least one application daily. Prolongs the rejuvenating effect of medical aesthetic treatments (peelings, laser treatments, injections).

Include only once in the document:
* improves moisturizing of the top layers of the epidermis
** self-evaluation test of 20 women after 60 days of treatment
Study under dermatological control

SENSINOV®
Moisturizing, soothing and protecting skin care

SENSINOV® is an innovative skin care product containing the SENSINOV® complex, purified olive oil extract and Karité extract and thus uses, for the first time, a triple active agent system to strengthen the epidermis and the dermo-epidermal junction:

Soothes and moisturizes irritated, dry and sensitive skin
Protects the skin's ecoflora, the natural defense system of the skin.
Repairs stressed skins after peelings, laser treatments, injections
Formulation without perfume or coloring agents.

- **Proven results****
- Soothing effect.....87,5 %
 - Better hydrated skin.....87 %
 - Reduced redness..... 62 %

① Daily care for sensitive and dry skin. Recommended for irritations and redness. Helps the skin recover effectively and fast after medical aesthetic procedures.

Protocol PRF 60®
