

ADMISSION CRITERIA and PRODUCT CLASSIFICATION
INNATEX 26
30.01.-01.02.2010

INNATEX

*Meeting the admission criteria is the basis for participating in INNATEX. Filling in this form is **mandatory** for every exhibitor! The exhibitor will not be accepted to take part in INNATEX until the form has been received and the cited admission criteria approved by the organiser. The admission criteria form is an essential part of your registration to InnateX and **must, therefore, be filled in before EVERY event**. The organiser reserves the right to assign an independent body with verification if the criteria are met. Exhibitors **MUST** have all certification and verifiable proof available at the stand for inspection at all times. The organiser has the right to order the removal of parts of a collection or the closure of an entire stand at any time. This does not affect the exhibitor's obligation to pay the stand rental due.*

Textiles and leather goods

Admission criteria for exhibitors offering textiles resp. leather goods:

- The textiles on show must be labelled in compliance with German textile labelling law ("Textilkennzeichnungsgesetz"). In particular the information on the raw materials content must be labelled on every textile exhibit in a clearly legible manner, using the terms for textile fibres as prescribed by the abovementioned textile labelling law. In this context, we would like to point out that regenerated cellulose fibres must be referred to in the official declaration on the content of raw materials exclusively as "viscose" (or modal, lyocell), irrespective of the original basic material (e.g. bamboo, cotton, wood). Such regenerated fibres form their own fibre group alongside synthetic and natural fibres; they may not be promoted as natural fibres.
- The proportion of **natural fibres must amount to at least 70% of the total textile range on show.**
- Exhibited items may only be promoted as a natural textile if they have at least a 70% natural fibre content.
- Leather goods made of synthetic leather (artificial leather) may not be exhibited.

Items exhibited solely as samples need not meet these regulations provided the equivalent items produced for sale do comply. In this instance, the composition of the raw material content for both the sample and the product to be sold must be clearly labelled on the exhibited sample.

Fibre material of the exhibition range on show (materials must add to a total of 100%):

Our exhibition range consists of approx. ____% natural fibres.

Our exhibition range consists of approx. ____% regenerated fibres (e.g. viscose, modal, lyocell) and approx. ____% of synthetic fibres.

Natural materials used (proof must be provided for the content information given below)

- | | |
|--|---|
| <input type="checkbox"/> Cotton → ____% from certified organic cultivation | <input type="checkbox"/> Linen → ____% from certified organic cultivation |
| <input type="checkbox"/> Hemp → ____% from certified organic cultivation | <input type="checkbox"/> Wool → ____% from certified organic livestock |
| <input type="checkbox"/> Silk → ____% from certified organic livestock | <input type="checkbox"/> Natural leather ____% herbal tanning |
| <input type="checkbox"/> Blended natural fibres | <input type="checkbox"/> Other (jute, ramie, stone, wood, horn, precious metals etc.) |

Important notice:

The sum of all fibre materials must be 100%.

Processing (proof must be provided for the details given below)

- | | |
|---|---|
| <input type="checkbox"/> no chlorine bleach | <input type="checkbox"/> no resin finishing |
| <input type="checkbox"/> no synthetic dyes | <input type="checkbox"/> all stages involved in the production process are known to the manufacturer |
| <input type="checkbox"/> no optical brighteners | <input type="checkbox"/> Tested for residues (at least a certificate for Ökotex Standard 100 or equivalent) |

Accessories

Admission criteria for exhibitors offering accessories:

- Natural material content (incl. metal, glass, ceramics) must amount to at least 70% of the entire range of accessories on display.
- Metals have to be free of chromium and nickel
- Any exhibited group of accessories made of at least 50% synthetic components must have been tested for residues.

Product classification for all exhibitors of textiles containing accessories (proof must be provided for the details given below)

- | | |
|--|---|
| <input type="checkbox"/> exclusively sustainable raw materials | <input type="checkbox"/> Metals do not contain any chromium or nickel |
| <input type="checkbox"/> no PVC | <input type="checkbox"/> Tested for residues (at least a certificate for Ökotex Standard 100 or equivalent) |

Countries of production (proof must be provided for the details given below)

- Processing in _____
- Made up in _____

Membership / Quality labels (proof must be provided for the details given below)

- Member of the International Association Natural Textile Industry (IVN)
- Member of the Demeter Association
- Member of Naturland – Association for Organic Agriculture
- Articles in our product range have the "Naturtextil" quality hallmark awarded by the IVN
- Articles in our product range have the "Global Organic Textile Standard (GOTS)"
- Articles in our product range have the "UV-Standard 801"
- Articles in our product range have the "Fairtrade" label
- Articles in our product range are produced by manufacturers certified according to social criteria

Product groups

- | | | |
|---|--|--|

| <input type="checkbox"/> Babies and childrenswear | <input type="checkbox"/> Home textiles | <input type="checkbox"/> Service provider |

Declaration:

We, herewith, confirm that the details given below are correct. We acknowledge that the accuracy of the details given will be checked by a neutral committee. For this reason, we accept that the questions on product classification must be answered in full and correctly each time we register. The correlation of the admission criteria with the products exhibited at the fair must be documented in writing and be kept available at the stand. If details are found to be incorrect, the fair reserves the right to exclude the firm from the fair or to impose a penalty for breach of contract of up to € 3,000. We agree for the information given to be published in the exhibition catalogue and on the internet.
