

DeCLERMONT

French Manufacturer

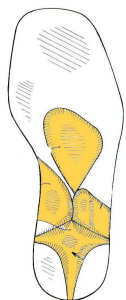

INNOVATION :

Insoles DCL SPORT

Patented contours

Contours developed by a team of **doctors and chiropodists**. It **improves** its user's **posture** by exerting a **mechanical action over the whole muscular chain**. **Award winner** at the Geneva trade show for inventions. It is a product recognised by the **Ministry for Health** and is therefore a class 1 device (approved by the French health products safety agency AFSSAPS).

Contours action over the body :

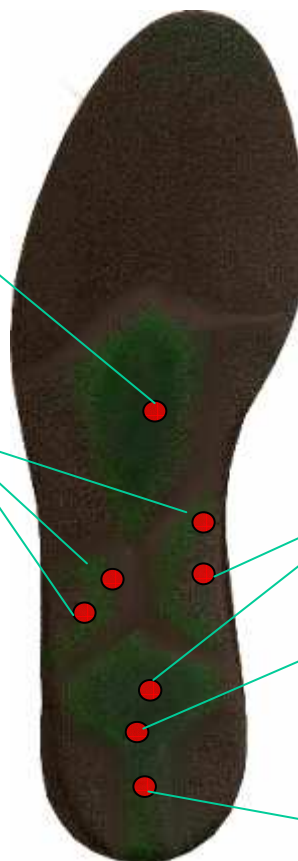

Cervical, lumbar vertebra, Achilles' heel, hollow feet

Lumbar vertebra, hips, knees, flat feet

Mandibles, dorsal, lumbar vertebra, flat feet, hips

Lumbar vertebra, knees

Cervical, lumbar vertebra, Achilles' heel, hollow feet, improvement of blood flow to the heart

DeCLERMONT

RANGE « DCL SPORT »

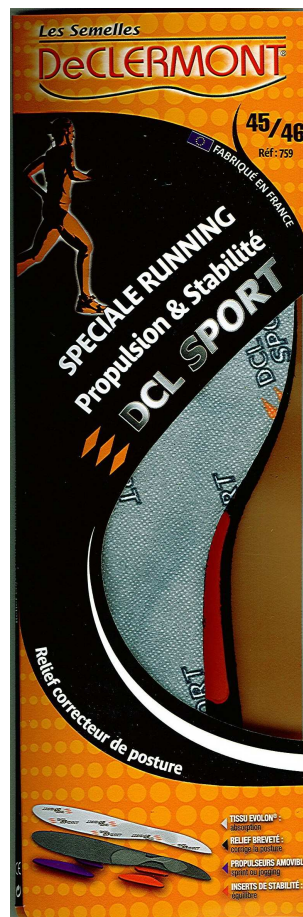

A range of technical products dedicated to practice of each sport:

RANDO
Ref. 761

RUNNING /
ATHLETISME
Ref. 759

SPORT CO'
Ref. 760

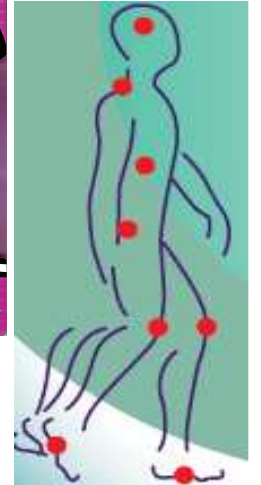

GOLF
Ref. 758

Statement :

1. Practicing sport causes **muscular pains**
2. A sportsman/woman always looks for **performances**
3. Each sport solicits the body in a **different way**

Our answer :

Because of these facts, we developed in collaboration with doctors & chiropractors, an insole suitable for each sport in accordance to specific needs of sportsmen/women.

DCL is a range of technical products dedicated to practice of each sport :

- **Contours which corrects posture in order to reduce muscular pain**
- **Stability inserts for better supports**
- **Propulsive inserts to restore energy to optimize practice of sport**
