World cup  
champion titles  
of Freestyle ski

# Raphaëlle Monod

- **French Freestyle champion**, high level athlete
- 11 years on the World Cup circuit of Freestyle skiing
- Consultant for EIDER, leading European sport brand in clothing and ski equipment
- Expert in mountain flowers actives, trained by the best Swiss botanists.
- Living in the French Alps, and permanently studying mountain's flowers natural care capacities.

# Raphaëlle Monod

- She kept the good habit from her champion life to use organic therapies to avoid being conflicted with anti-dopage world regulations.
- She travelled the world and discovered various body treatment cultures
- She knows a lot about taking care of her skin exposed to hard weather conditions.
- Her favorite book: Maria Treben's, Austrian herborist, "the god's drug store".

snö  
bioflowers

Raphaëlle is inspired by:

Also inspired by

Theodore Monod

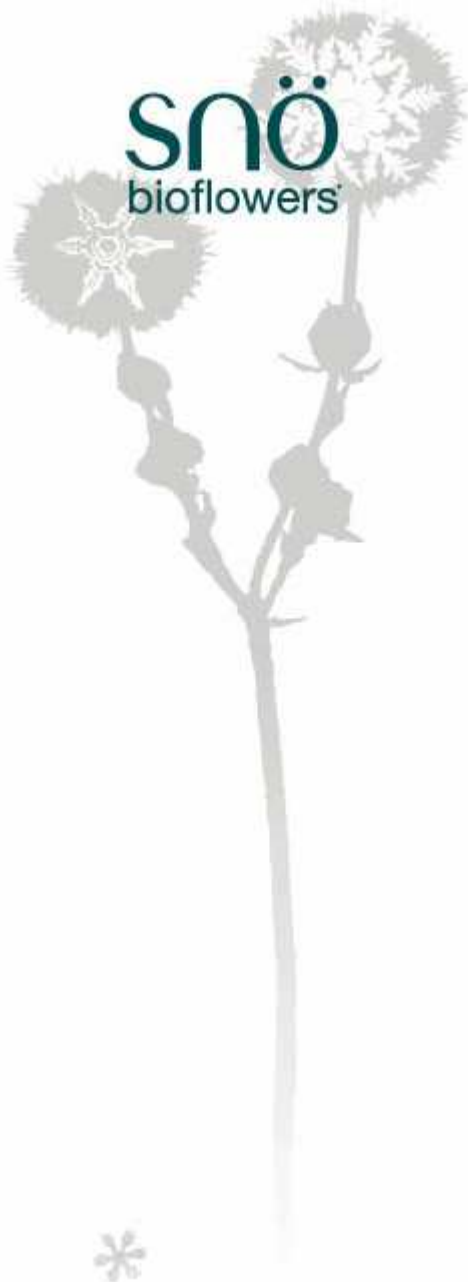

French naturalist,  
explorer and humanist.

Co-founder of the world academy  
of art and science,

her grand uncle.

“Snö BioFlowers is the natural result of my passion for both organic care and mountains environment . It is an ambitious enterprise I’d like to share with women around the world.”

Raphaëlle Monod and  
Else Editeur de Beauté  
have created  
a unique line-up from mountain  
flowers extracts under a  
single brand

bioflowers

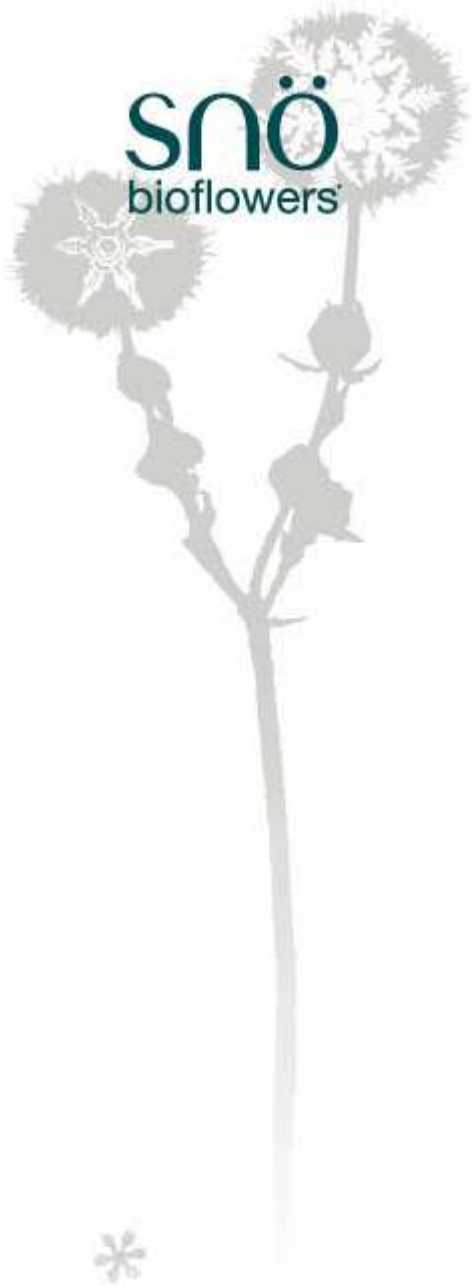

# Snö Bioflowers fundamentals

# Transparency

**Purity**

# Tonicity

# Brand values

## Pleasure

- High penetrating textures
- Unctuous emulsions
- High quality flower extracts
- A refine and delicate perfume

# The brand's values

## Effectiveness

- Mountain plants contains unequalled active ingredients because of the humus brought by the slides is a very powerful manure.
- Hard weather conditions enhance even more active ingredients quality.

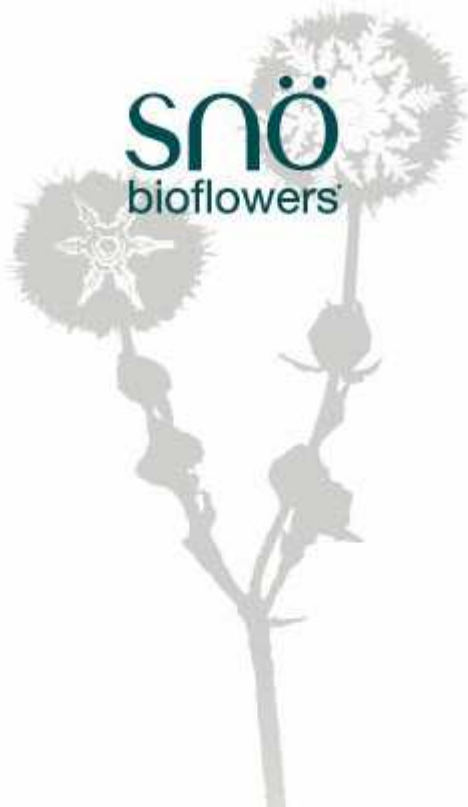

snö  
bioflowers

# The brand's values

## Eco-citizenship

- 1% for the planet
- Protection of Montains
- Ecocert label
- Cosmebio label

# 1% for the planet

- Snö BioFlowers decided to subscribe to the American association « **1 % for the planet** », created by Craig Mathews, and Yvon Choinard, founder and CEO of outdoor sportswear Californian company Patagonia.
- 1% for the planet is a companies club which aims to dedicate at least 1% of their turnover to natural environment protection.
- 800 giving companies all around the globe, M\$ 25 collected from foundation..
- Money is directly going from the giving company to the receiving accredited natural environment protection association.
- A firm and sincere commitment

**FOR THE  
PLANET**

# Mountains riders

- Snö BioFlowers choose Mountains riders, founded in year 2000.
- Mountains riders aims to keep mountains of the world as clean as possible and keep its biodiversity.
- Mountains Riders perform information toward users about direct pollution coming from the mass tourism and the right behavior to have to avoid it.
- And provide mountain's resorts around the world with sustainable development guidance.

# The Bio-pleasure

Ecocert guaranties the labelling «**BIO**» :

«**BIO**», stands for **Biological (i.e. Organic) cosmetic**:

- 🌿 **95%** of the ingredients in the formulation are natural (i.e. not coming from the petro-chemistry, without perfume, without synthetic colorants, without glycol)
- 🌿 **10%** (at least) of the vegetal ingredients are certified Organic on the total of the ingredients (including water, first ingredients with over 65%)
- 🌿 **95%** (at least) of the vegetal ingredients are to be certified Organic, on the total of the vegetal ingredients
- 🌿 **snö bioflowers** is a brand certified BIO by Ecocert
- 🌿 **snö bioflowers** respects the **Cosmébio** charter

# Raphäelle's commitment

## ORGANIC care with the Mountains' flowers

*« Through snö bioflowers, I wish to let you discover the strengths of the Mountains' flowers. Choosing snö bioflowers, it's also fighting for the survival of the Alps »*

*Raphaëlle Monod-Sjöström  
Freestyle Skiing World Champion*

# The mountain: an inspiring and reassuring environment, rich in natural cosmetic actives

- Evocative: the mountains talk to all of us
- Reassuring: a natural environment free from pollution, powerful nature in a pure state
- Rich in natural cosmetic ingredients:
  - **Plants of the Mountains:** St John Wort, chamomile, Edelweiss, Horsetail, Mallow, Melilot, Gentian are all cultivated in altitude (between 1000 and 1500 meters) and have multiple virtues.
  - **The humus brought by the snow slides** constitutes a natural powerful manure which explains why certain plants of the mountains contain active ingredients of unequalled effectiveness.

# snö bioflowers

## A new Bio “era”

Because applying a bio product to beautify your skin must also be a pleasant moment:

We insist particularly on the development of:

- textures which penetrates quickly,
- unctuous emulsions, easy to apply
- high quality ingredients with essential oils and invaluable vegetable extracts (edelweiss, gentian, mallow, St John Wort...)
- a refined and delicate perfume: from a green bouquet, reminding of a walk in the mountains

# Our transversal plant

The Mallow (*Malva sylvestris* L.)  
is quite naturally our range's  
transverse flower,  
present in all our formulations.

# Face Care

## Face Care - 6 Products

- UTILISATION :Apply on the skin and gently smooth over particularly fragile areas.

## LOW PROTECTION SUN CREAM SPF 8

With Calendula & Edelweiss

100% mineral sunscreen

ANTI-AGING - Water-resistant

SENSITIVE SKIN

30 mL – 1,014 fl.oz

- PRESENTATION :

- Snö bioflowers Low Protection Sun Cream SPF 8 is specifically formulated for sensitive skin. Containing 100% natural mineral UV filters, it protects the skin perfectly and respects its balance. Water-resistant, it absorbs immediately and leaves the skin soft, without any greasy film or white residue.
- The Edelweiss or "snow immortal" grows wild under extreme climatic conditions. It is subject to intense sun radiation in particular. Snö bioflowers chose it for its antioxidant and anti-free radical properties which delay the effects of skin aging. As a protected species, it is cultivated to safeguard the species.
- The formula, also enriched with moisturising and soothing Calendula oil, softens and protects the skin.

- ACTIONS : Moisturises and soothes

- UTILISATION : Apply over the entire face, neck and décolleté before and during sun exposure in order to obtain sufficient protection. Reapply regularly. Avoid prolonged exposure during the hours of maximum radiation.

### PRECAUTIONS FOR USE:

- Sunburn is dangerous, especially for children. Babies and young children should not be exposed to the sun and heat.
- Use protective clothing (wide-brimmed hat, sunglasses, T-shirt, etc.)
- Sun protection products protect the skin for a limited period of application and should not be used to increase the length of sun exposure.

## MEDIUM PROTECTION SUN CREAM SPF 20

With Calendula & Edelweiss

100% mineral sunscreen

ANTI-AGING - Water resistant

SENSITIVE SKIN

30 mL – 1,014 fl.oz

- PRESENTATION :

- Medium Protection Sun Cream SPF 20 is specifically formulated for sensitive skin. Containing 100% natural mineral UV filters, it protects the skin perfectly and respects its balance. Water-resistant, it absorbs immediately and leaves the skin soft, without any greasy film or white residue.
- The Edelweiss or "snow immortal" grows wild under extreme climatic conditions. It is subject to intense sun radiation in particular. **Snö bioflowers** chose it for its antioxidant and anti-free radical properties which delay the effects of skin aging. As a protected species, it is cultivated to safeguard the species.
- The formula, also enriched with moisturising and soothing Calendula oil, softens and protects the skin.

- ACTIONS : Moisturises and soothes

- UTILISATIONS :Apply over the entire face, neck and décolleté before and during sun exposure in order obtain sufficient protection. Reapply regularly. Avoid prolonged exposure during the hours of maximum radiation.

### PRECAUTIONS FOR USE:
