# TEIDE : electronic fluid warming unit

Teide

- ▶ **TOTAL CONTROL OVER TEMPERATURE** thanks to patented **TERMIFLOW** technology.
- ▶ **SUPERIOR PERFORMANCE** from 0,5 ml/min to more than 150 ml/min.
- ▶ **FAST RESPONSE:** TermiFlow Technology ensures rapid 'get-to-set' temperature.
- ▶ **MANUAL OR AUTOMATIC TEMPERATURE SETTING,** operating temperature can be fixed depending upon user protocols.
- ▶ **DRY WARMING SYSTEM:** avoids contamination and infection risks associated with humid systems.
- ▶ **EASY TO CLEAN:** complete access to heating plate to make cleaning the unit simple and straightforward.

## HEAT EXCHANGER

Wide and homogeneous heat contact surface

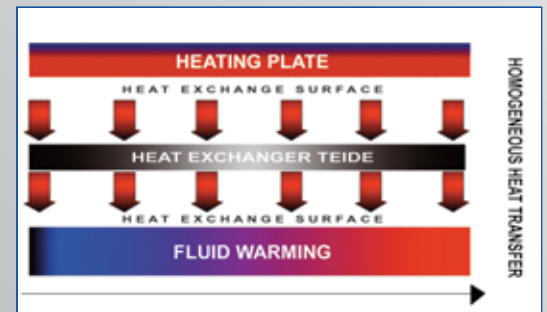

very low priming volume of 8ml

## TECHNICAL CHARACTERISTICS

### TEIDE, Fluid Warmer Unit

Range name	TERMIFLOW™
Product name	Teide
Dimensions	270 x 130 x 170 mm
Weight	3.400 Kg
Protection Against Ingress of Fluids	IPX0
Power supply	220-240 VCA, 50 Hz 115-130 VCA, 60 Hz
Fuses	2 x 3.15A (220-240 VCA, 50 Hz) 2 x 6A (115-130 VCA, 60 Hz)
AC power cord	2.5 m
Class and type Protection	II B
Thermal Protection	Internal Thermostat
Environmental operating temperature	18°C - 25°C

### TERMIFLOW™

Computer interface	RS-232 (RJ45)
Alarms	Safety Lock High - Low Temperature Door Open
Functioning	36-42°C
Temperature range	± 1°C.
Mounting	Can be clamped to an I.V. pole
CE Certification	0459
Manufactured by	Ace Development
